

Comments on Amateur Radio Licensing Exam Element 1:

I do not think the rules should be changed at all. I see no reason to simply follow suit with WARC-03.

On various petitions:

Petition RM-10781: If a rule change is coming I would agree with this the most.

Petition RM-10782: DISAGREE

Petition RM-10783: DISAGREE

Petition RM-10784: DISAGREE

Petition RM-10785: DISAGREE

Petition RM-10787: DISAGREE

The idea the people never use CW and worse that it is stated explicitly in the NCVEC's petition is a farce and just patently untrue.

Thank you for your time.
